# EIGHTIETH REPORT OF THE SALARIES REVIEW COMMISSION

## General Review of Salaries and other Terms and Conditions of Service of offices within the purview of the Salaries Review Commission

### CHAPTER 1

#### INTRODUCTION

The Salaries Review Commission is established in accordance with Section 140 of the Constitution of the Republic of Trinidad and Tobago. The Commission consists of a Chairman and four members, who are appointed by the President after consultation with the Prime Minister and the Leader of the Opposition.

2. Section 141(1) of the Constitution provides for the Commission to review from time to time, with the approval of the President, the salaries and other terms and conditions of service of the offices falling within its purview.

3. The size of the remit group which ranges from the President of the Republic to State Counsel I in the Judicial and Legal Service has continued to increase and some 217 categories of offices, representing an establishment of 811 persons, now fall within our purview. The offices fall under the following groupings:-

#### **Part I**

The President of the Republic  
The Higher Judiciary  
Ombudsman  
Auditor General  
The Industrial Court  
The Tax Appeal Board  
The Environmental Commission  
Top Managers in the Public Service  
Top Managers in Statutory Bodies  
Senior Officers in the Protective Services and the Defence Force  
Senior Diplomatic Representatives

#### **Part II**

Members of Parliament  
The Tobago House of Assembly  
Local Government Officials

Chairmen and Members of  
Commissions and Boards  
The Judicial and Legal Service

4. In this Report, we have established the Environmental Commission as a separate grouping, removing it from the grouping of Chairmen and Members of Commissions and Boards. A full listing of the groupings and the offices thereunder is set out in Appendix I.

**Background to the current general review**

5. This Report is the sixth comprehensive review of salaries and terms and conditions of service of offices within our purview. The last such review was undertaken in 2002 and recommendations thereon were submitted in December, 2002 in our Sixty-seventh Report.

6. Subsequent to the submission of that Report, we completed twelve reports in the intervening period, 2003 to 2005, the majority of which covered reviews of existing salaries and terms and conditions of service of certain office holders. A listing of the Reports prepared by the Commission following the publication of our Sixty-seventh Report is set out in Appendix II.

7. The remit to undertake a general review in 2005 is in keeping with previous recommendations made by the Commission, and accepted by Cabinet, for the establishment and maintenance of a regular three-year schedule, to ensure that compensation for offices within our purview is kept relatively current.

8. As has occurred in the past, the compensation for these offices has fallen behind the levels which we consider to be appropriate for broadly comparable jobs in the private sector and in State Enterprises.

9. In the case of offices in the Judicial and Legal Service, the Job Evaluation exercise which was ongoing at the time of our Sixty-seventh Report, was completed in the intervening period and revised salaries were implemented with effect from April 1, 2002. It has been brought to our attention that some existing offices in the Judicial and Legal Service were omitted from the Job Evaluation exercise and therefore would have to be evaluated. Additionally, new offices which were established in the Judicial and Legal Service subsequent to the completion of the exercise have to be evaluated.

## CHAPTER 2

### SCOPE OF THE REVIEW

10. By letter dated April 15, 2005, the President of the Republic of Trinidad and Tobago conveyed his approval for the Salaries Review Commission to undertake a general review of the salaries and other conditions of service of holders of offices within the purview of the Commission. The review was to be undertaken in two parts, one part pertaining to Members of Parliament, Local Government Officials and Members of the Tobago House of Assembly and the other part pertaining to all other office holders who fall within the purview of the Commission.

11. As is customary, we invited written submissions on behalf of all offices on the issue of a review of salaries and other terms and conditions of service. The responses to our invitation were of considerable assistance to us in our deliberations. Although some office holders indicated a willingness to appear before the Commission, given the comprehensive nature of most of the submissions, oral presentations were not considered necessary on this occasion.

#### **Considerations underlying the current review**

12. In conducting our review, we considered the principles and criteria which have guided us in the conduct of reviews in the past. We reflected on the fundamental principles that guide similar review bodies in other jurisdictions such as Australia, Canada, United Kingdom, New Zealand, India, Jamaica and Barbados. Our conclusion is that the core of the precepts which we identified in previous Reports, continues to be valid. These are as follows:-

- (i) establishing remuneration which bears fair comparison with current levels of remuneration paid within the private sector for broadly comparable jobs, taking into account differences in other conditions of employment;
- (ii) providing appropriate levels of remuneration to attract, recruit and retain persons of suitable competence, experience, knowledge, skills and personal attributes to fill positions of very high responsibility and trust;
- (iii) ensuring appropriate differentials in compensation which take into account significant differences in the levels of responsibility between one office and another;
- (iv) providing the motivational and intrinsic value which compensation packages should carry generally; and

- (v) providing compensation packages for top political and managerial offices to promote the efficient delivery of public policies and public management solutions.

13. In addition to the above listed principles, the Commission is guided in its deliberations by the state of the country's economy.

14. An analysis of the factors that guided our deliberations is set out below.

### **Comparisons with executive compensation in the Private Sector and State Enterprises**

15. We examined data on remuneration packages payable to comparable positions in the private sector as well as information obtained in respect of similar positions in State Enterprises. Notwithstanding the relatively short time lag between our last general review and the current one, we noted that the gap between compensation arrangements in the public sector and those in the private sector and the State Enterprises continues to widen.

16. At the time of our last review, base salaries for Chief Executive Officers (CEOs) in the private sector ranged between \$21,000 per month and \$53,000 per month, while, in the State Enterprises, the range was between \$8,000 per month and \$46,000 per month. We are informed that current base salaries in the economy (inclusive of the State sector), range from \$36,908 to \$101,092 per month. In State Enterprises, the range is from \$26,000 to \$74,000 per month. The current average base salary in the economy (inclusive of the State sector) is \$69,800 per month and for State Enterprises, \$39,000 per month.

17. We are aware that in the private sector, there continues to exist an attractive mix of fringe benefits and allowances that include housing, entertainment, overseas travel allowances, company cars, medical and group health plans, mortgage subsidies, paid up club memberships, as well as payment for part or all of telephone/utilities expenses and charges. Bonuses also comprise a large percentage of executives' compensation. By comparison, there are allowances that are peculiar to the Public Service such as Duty and Service Allowances which are paid to Top Managers. The average total compensation packages for CEOs in the economy (including the State sector) is \$105,495 per month (inclusive of bonus payments). In the State Enterprises, the average total cash compensation is \$43,305 per month (exclusive of bonus payments).

### **Changes in the Cost of Living**

18. In order to determine the change in the value of salaries and allowances in real terms since our last general review, we examined the rise in the cost of living over the period. Data from the Central Statistical Office indicate that the All Items Index of the Index of Retail Prices rose 15.4% between April 2002 and

April 2005 but between April 2002 and December 2005 the overall increase was 20.7%.

**Public Service Executive Pay vis-à-vis pay for other offices in the Public Service**

19. With the acceptance of the recommendations in our Sixty-seventh Report, a reasonable differential in pay existed between the salaries of top offices which fall within our purview and those of other offices in the Public Service. However, we have been advised that as a result of salary negotiations with a number of public service associations, the differentials between the pay of the top levels of the various bargaining units and that of directly-related offices within our purview have narrowed. We believe that appropriate differentials would have to be restored to produce satisfactory levels of pay for offices of greater responsibility and to provide more incentive to individuals at the middle management level to aspire to those positions.

**Review of current relativities**

20. As requested, we have re-examined the current relativities existing among the various offices and we are satisfied generally that such relationships are appropriate. However, we did consider it necessary to make adjustments in the compensation applicable to certain offices. We have taken into account the increasing responsibilities and demands being placed upon parliamentarians, members of the Tobago House of Assembly and Local Government officials and accordingly, have realigned these offices and have recommended appropriate compensation.

## CHAPTER 3

### CURRENT REMUNERATION TRENDS IN CERTAIN OTHER JURISDICTIONS

21. As in previous general reviews, certain office holders, in their submissions, pointed to the compensation packages paid to their counterparts in other jurisdictions. Apart from the compensation packages, they also highlighted the relativities which exist in those jurisdictions among different offices.

22. We sought and examined information in respect of public sector officials in countries such as Australia, New Zealand, Canada, the United Kingdom, Sri Lanka and Kenya as well as Caribbean countries such as Jamaica and Barbados. As in our last general review, we placed emphasis on the relativities existing among positions in the relevant country rather than on the dollar value paid to those officials. We hold the view that it is not appropriate simply to compare salaries paid in different countries without taking into consideration factors such as differences in the cost of living and relativities existing among positions in other organizations in each country.

23. We have observed that similar to other Commonwealth parliamentarians, those in Trinidad and Tobago are paid a variety of allowances which cover a number of circumstances. These include Housing, Subsistence, Transportation and Overseas Travel.

24. In terms of transportation allowances, this country provides a combination of tax and duty concessions on a motor vehicle purchased as well as a loan to purchase the vehicle and a monthly transport allowance. We noted that other countries generally provide a single benefit either in the form of duty/tax concessions or a loan or a transportation allowance. In this regard, it appears that Trinidad and Tobago is unique in its provisions for transportation benefits.

## CHAPTER 4

### ECONOMIC AND FINANCIAL CONSIDERATIONS

25. One of the factors underlying the current review is the prevailing economic and financial realities as well as projections for the future since remuneration packages of all the office holders falling within our purview are met from the country's general revenues.

26. Since our last review, Trinidad and Tobago has continued to experience positive economic growth. The data suggest that the ample energy resource and the decisions made several years ago to promote downstream development have given the country a solid and enviable economic base. Real Gross Domestic Product (GDP) grew by 7% in 2005 compared with a growth rate of 6.2% in 2004 and we have been advised that in 2006, it is anticipated that real GDP will grow by 10%. The main impetus for the strong GDP growth came from the energy sector which expanded by 10.9% in 2005. Further, it is anticipated that oil production and other activities such as exploration will increase by 6% in 2006. This trend is expected to continue in the medium term. The Commission notes, however, that inflation picked up sharply in the latter part of 2004, stimulated by a sharp rise in food prices. This trend continued in 2005 and was affected further by increasing fiscal expenditures. The annual inflation rate at the end of December 2005 was 6.8%.

## CHAPTER 5

### FRINGE BENEFITS

27. We are aware that in order to gain a competitive edge, large business entities worldwide offer a range of fringe benefits to top executives. These incentives are part of their compensation strategy to attract and retain the best skills. In keeping with this strategy, it has been our practice to include fringe benefits in the compensation packages of the offices which fall within our purview.

28. In our Sixty-seventh Report, we examined the allowances and benefits provided to office holders with a view to making their application more flexible and less difficult to administer. During our current review, we have attempted to rationalise them further wherever there was the need. Our recommendations are set out hereunder.

#### **TRANSPORT FACILITIES**

##### **Motor Vehicle Purchase Loan**

29. Under the existing arrangements, the quanta of Motor Vehicle loans vary. The maximum loans provided for office holders range from \$100,000 to \$200,000 and are repayable over a period of six (6) years at a rate of interest of 6% per annum. Some office holders have proposed that such rates be fixed as low as 3%. We are satisfied, however, that the rate of repayment currently offered is reasonable after having compared it with commercial rates of interest for similar type loans, which may appear to be lower but, in fact, result in a higher cost to the borrower. This occurs since the interest on consumer loans is calculated on an 'add-on' basis over the entire period of the loan in contrast to one based on the reducing balance. We have not recommended any change in the existing interest rate or period of repayment.

30. Based on the information we obtained in respect of the 'on-the-road' price for a wide range of motor vehicles, we have recommended that the existing loans be revised to maximum levels of \$300,000, \$200,000, \$175,000 and \$125,000 for the various groups of offices. The details are set out in the relevant chapters.

##### **Tax/Duty Exemption on Motor Vehicles**

31. With regard to the tax/duty concessions on motor vehicles available to office holders, we do not recommend any change at this time except for an increase in the level of exemption from Value Added Tax payable on a new or used motor vehicle where that tax applies.

### **Transportation Allowance**

32. The payment of a Transportation Allowance is not contingent on the ownership of a motor vehicle and is provided to assist office holders with their transportation needs as well as with the maintenance costs associated with keeping and using their motor vehicles in the performance of their official duties. In keeping with the trend in the movement of transportation costs and bearing in mind that the allowances will subsist for three years, we have recommended increases in the Transportation Allowance. The revised rates are set out in the relevant chapters.

### **Repair Loan**

33. We have recommended also that the loan provided to office holders to effect repairs to a motor vehicle be revised from the existing level of \$15,000 to \$20,000. In this regard, we have taken account of the increased cost of repairs normally undertaken by motor vehicle owners.

### **Personal Chauffeur/Service Allowance**

34. A number of office holders are eligible for a Personal Chauffeur while others are provided with a Service Allowance.

35. The latter allowance was introduced to give certain office holders the flexibility to secure services of their choice, including but not restricted to those of a chauffeur/driver. This allowance was provided in order to ease the demands placed on the office holders by virtue of their responsibilities within and outside of working hours.

36. In their submissions, a number of office holders who are not eligible for a Service Allowance sought to be provided with one. Some of those office holders meet the criteria for the provision of the allowance and accordingly, we have recommended its inclusion in their remuneration arrangements. We have recommended also a revision in the existing rates of Service Allowance in order to enable the office holders, where necessary, to meet such payments as National Insurance contributions as well as the salary of the persons they engage, without being out of pocket.

### **SUBSISTENCE ALLOWANCE**

37. We re-examined the existing Subsistence Allowance provisions in order to determine whether or not there was need for change in the current system. One group of office holders proposed that some elements of the Subsistence Allowance benefit should be eliminated and the value incorporated into salary. We were informed also that the payment of a Subsistence Allowance to

executive positions in the private sector is rare and that it is not widespread in the public sector.

38. In general, we recognised the need to maintain the provision of the Subsistence Allowance. However, where we obtained information that appropriate arrangements exist for the provision of meals/accommodation, we have recommended the discontinuation of the allowance.

39. In recommending increases, we bore in mind the increase in the Index of Retail Prices with respect to dining out. With respect to overseas travel, we have made provision for those occasions on which office holders may not be eligible for other allowances to meet the cost of meals and incidentals. Our recommendations are set out in the relevant chapters.

### **HOUSING**

40. In our last general review, we recommended the provision of a Housing Allowance for most of the eligible office holders, in lieu of accommodation, given the policy of the State to dispose of its housing stock.

41. Based on the increased cost of rental of housing over the period 2002 to 2005 and noting that any revised allowance would subsist for a period of three years, we have recommended increases in the Housing Allowance as set out in the relevant chapters.

### **MEDICAL BENEFITS**

42. We note that since the submission of our Sixty-seventh Report, a Group Health Plan was introduced for certain office holders, such as Top Managers in the Public Service and Statutory Bodies, officers of the Judicial and Legal Service and certain other office holders who formerly were eligible for Group II level benefits, while others retained their original entitlement. We do not recommend any change in the existing arrangements for any of the offices within our purview.

43. With respect to part-time office holders who sought to be provided with medical benefits, we note that it is not the norm for such benefits to be extended to persons who serve on a part-time basis.

### **TELEPHONE FACILITY**

44. In our examination of the existing telephone facility, we were satisfied that the level of allowance currently provided to certain offices is still adequate given the existing telephone rates and charges and the level of allowances provided to executives and managers in public sector enterprises in Trinidad and Tobago.

45. Where we have considered it appropriate, we have recommended an increase in the existing rates. As a consequence, where existing rates of \$250 per month and \$350 per month are payable, revised rates of \$300 per month and \$400 per month have been recommended.

46. Where provision exists for the State to meet the cost of telephone facilities, we have recommended no change to the existing provisions. However, we have recommended that certain office holders be allowed to opt to receive an allowance instead.

### **OVERSEAS TRAVEL FACILITIES**

47. We have recommended increases in instances where Travel Grants are payable in cash, in order to maintain the equivalent value of the passages provided. In general, we have not recommended improvements in the number of tickets provided to office holders by the State, since we maintain the position which we have taken over the years that we are not convinced of the need for such a provision as a feature of the remuneration package for public sector officials.

48. Certain office holders drew to our attention the fact that because of the length of the term of their appointments, for example, three years, it was not possible to utilise fully the facility attached to their office where different benefits were provided on alternate occasions. We have sought to resolve the matter by providing office holders with the option of receiving a Travel Grant on an annual basis instead. In this regard, we have recommended that the office holder be required to opt to receive the benefit which he/she considers more favourable, that option to remain in effect for the duration of the office holder's tenure.

### **PENSION/GRATUITY**

49. Some office holders have requested improvements in their existing superannuation benefits. A number of office holders have requested that their allowances be incorporated into salary so that such allowances would be included in the computation of their pension benefits. A similar request was made by some office holders who are eligible for gratuity only.

50. In the latter case, the office holders sought to have their gratuity calculated on the basis of 'gross emoluments', that is, inclusive of allowances rather than 'gross salary' as currently applies. We were unable to support these proposals since the majority of allowances are distinct from salary and are paid for very specific purposes. It is only where we considered an allowance to be closely linked to salary, such as in the case of the Personal (Judge's) Allowance which is an obvious extension of salary, that we have recommended the amalgamation into salary. In such an instance, the payment of a separate allowance will cease.

51. A number of office holders who are not eligible for terminal benefits have sought the introduction of a gratuity. As we had noted in previous Reports, it is not customary to provide part-time office holders with terminal benefits. The established criterion for the payment of such benefits is that service rendered is of a full-time nature. We recommend no change.

52. We have received a remit to consider the recommendations of the House Committee of the House of Representatives for the amendment of the Retiring Allowances (Legislative Service) Act, Chapter 2:03. We propose to treat with this matter in a subsequent Report.

### **OTHER BENEFITS**

53. Where office holders have made submissions for additional fringe benefits, we have dealt with them in the relevant chapters on the individual offices or groups of offices.

## CHAPTER 6

### DISCONTINUATION OF EXISTING BENEFITS

54. In recommending the discontinuation of certain benefits, we have borne in mind that certain offices are protected by section 136(6) of the Constitution which provides that the salary and allowances payable to holders of specified offices as well as other terms of service applicable to them cannot be altered to their disadvantage after their appointment. We are mindful also that that section of the Constitution provides that where an office holder exercises an option with regard to terms of service, the terms for which he/she opts shall be considered to be more advantageous to him/her than any other terms for which he/she may have opted.

55. We note also that section 5(5) of the Tax Appeal Board Act, Chapter 4:50 and section 5(3) of the Industrial Relations Act, Chapter 88:01 provide similar protection to holders of offices governed by the respective provisions.

56. Except in the case of the Personal (Judge's) Allowance and the Personal Allowance payable to certain members of the Industrial Court, the recommendations made for the discontinuation or reduction of benefits are intended to apply to new appointees only. Incumbents have the option to retain the existing benefits or accept the new provisions.

57. In the case of some offices, we have recommended the discontinuation of allowances where we have been informed that administrative arrangements have been established for meeting costs incurred and that as a consequence, the existing provision is not utilised. Since the affected office holders have not been placed at a disadvantage with the implementation of administrative arrangements, we have recommended the discontinuation of the unused provisions. In such circumstances, an office holder would not be required to exercise an option.

- (b) Either provision of hotel accommodation and meals plus a Subsistence Allowance of US\$100 per day, or an allowance of US\$200 per day for accommodation plus a Subsistence Allowance of US\$100 per day.
- (c) The cost of transportation to be met.
- (d) One hotel suite to facilitate the holding of conferences or any minor entertainment.
- (e) The cost of entertainment to be met.

### **Telephone Facilities**

Telephone expenses related to official business to be paid by the State.

### **Medical Benefits**

Entitlement to medical attention/treatment and prescribed drugs for self, spouse and children who are unmarried and under the age of eighteen, at any health care facility under the Regional Health Authorities, including the Eric Williams Medical Sciences Complex. Where such medical attention/treatment is not available at such health care facility, the costs at any other hospital, institution or nursing home in Trinidad and Tobago to be met by the State.

(‘Medical attention/treatment’ excludes optical and dental treatment/services. ‘Prescribed drugs’ exclude drugs which are obtainable without a prescription.)

### **Pension/Gratuity**

Entitlement to superannuation benefits in accordance with the provisions of the President’s Emoluments Act, Chap. 2:50.

### **Exemption from Taxation**

The salary, pension and any allowance of whatsoever nature payable to the office holder in respect of his/her service as President to be wholly exempt from the payment of income tax and any other tax.

## CHAPTER 8

### THE HIGHER JUDICIARY

60. The Supreme Court of Judicature for Trinidad and Tobago consists of a High Court of Justice and a Court of Appeal.

61. This Court comprises the Higher Judiciary, namely, the Chief Justice, Justices of Appeal and Puisne Judges.

62. The role of the Supreme Court is critical in a democratic society since the members of the Court adjudicate on all matters of criminal, civil and constitutional law and their decisions can have a significant impact on the individual and the society as a whole.

63. The submissions from the members of the Higher Judiciary treated with the following, as we understand them:-

- (i) the de-linking of judicial salaries from those paid to Cabinet Ministers, parliamentarians and other senior public officials ;
- (ii) a simplification of the remuneration package by incorporating allowances into basic salaries;
- (ii) an improvement in the existing Travel Grant;
- (iv) a review of superannuation benefits;
- (v) a review of the criteria used to set the Housing Allowance;
- (vi) the provision of medical benefits to retired Judges and their spouses; and
- (vii) the reinstatement of optical and dental treatment/services at the Eric Williams Medical Sciences Complex.

64. We have considered these submissions in formulating our recommendations and our responses are as follows:-

- (i) The Commission considers the established framework into which the various offices fall to be appropriate.
- (ii) The Commission is of the view that with the exception of Personal (Judge's) Allowance, the other allowances are not natural components of salary as they are paid for specific and different purposes. In determining an appropriate salary, as recommended, we have added the Personal

(Judge's) Allowance to the salary. As a consequence, the payment of that allowance as a separate allowance would be discontinued.

- (iii) In respect of the Travel Grant, we have recommended an increase in the existing quantum.
- (iv) With regard to the proposal that the existing superannuation benefits of the office holders be reviewed, we are aware that currently the issue of pension reform in the Public Service is engaging the attention of the State. Consequently, any consideration of this issue should await the outcome of this exercise.
- (v) As is customary, we have recommended revised quanta of Housing Allowance taking into consideration the increased cost of rental.
- (vi) On the provision of medical benefits to serving Judges and their spouses, we are mindful that the existing benefit under which the State meets unlimited costs for the office holders, their spouses and specified children is extremely generous. We consider that the issue of post-retirement medical benefits for serving Judges should be addressed more appropriately in the context of a Group Health Plan. The provision of medical benefits to persons who have retired does not fall within the purview of the Commission.
- (vii) With respect to the proposal that optical and dental treatment/services at the Eric Williams Medical Sciences Complex be reinstated for these office holders, the Commission wishes to clarify that the cost of such treatment/services has always been excluded from the applicable benefit.

65. Our recommendations for offices of the Higher Judiciary are as follows:-

#### **Recommendations**

<b><u>Salary</u></b>	<b><u>\$ per month</u></b>
Chief Justice	40,500
Justice of Appeal	33,800
Puisne Judge	30,000

#### **Personal (Judge's) Allowance**

## CHAPTER 11

### THE INDUSTRIAL COURT

71. The Industrial Court is a superior court of record and a specialist court, established in accordance with Section 4 of the Industrial Relations Act, Chap. 88:01, to hear and determine trade disputes and other matters relating to the registration of Collective Agreements and industrial relations offences.

72. Members of the Court are the President, Vice President, Chairman, Essential Services Division and Members.

73. It has been submitted to us that when the Industrial Court was established in 1965, the salaries and other terms and conditions of service for members of the Court were fixed in relation to those of Judges of the Supreme Court. The office holders, as we understand their submissions, have sought the following:-

- (i) the restoration of the external relativity with offices of the Higher Judiciary through the payment of a Judge's Allowance;
- (ii) the provision of exemption from income and other taxes;
- (iii) a restoration of internal relativities between the offices of President, Vice President and Chairman, Essential Services Division and those of the Members or alternatively, a reduction of the differentials between the packages; and
- (iv) the reinstatement of a Chauffeur Allowance to office holders appointed to the Court after December 31, 1994.

74. We consider the existing internal relativities among the offices of the Industrial Court and the external relativities with other offices under our purview to be appropriate and that the compensation packages as recommended reflect the qualification and experience requirements as well as the specific duties of the respective offices.

75. On the issue of tax exemption, we have been advised that Cabinet has agreed that only the office of President, Industrial Court should enjoy exemption from taxation.

76. A Chauffeur Allowance no longer forms part of the compensation arrangements of office holders under our purview. There are specified office holders who are eligible for either a Personal Chauffeur or a Service Allowance. In the case of the latter, an allowance is recommended taking into account the mental, physical and psychological demands of the job, the strain attendant on driving long distances in the performance of official duties and the hazards

associated with certain jobs arising out of extensive travelling including considerations of personal safety.

77. We are informed that there are now two Courts, one in Port of Spain and the other in San Fernando and that office holders may be assigned specific cases in San Fernando and would be required to travel between the two cities on a regular basis. Consequently, we recommend the provision of a Service Allowance to Members of the Industrial Court.

78. The President, Vice President and Chairman, Essential Services Division are eligible for a Personal Allowance. Since that allowance is a natural component of salary, we recommend that the allowance be added to salary and that the payment of a separate allowance be discontinued.

79. Our recommendations for the offices of the Industrial Court are as follows:-

### **Recommendations**

#### **PRESIDENT, VICE PRESIDENT AND CHAIRMAN, ESSENTIAL SERVICES DIVISION**

<b><u>Salary</u></b>	<b><u>\$ per month</u></b>

### THE TAX APPEAL BOARD

80. The Tax Appeal Board is a superior court of record established to deal with appeals from decisions of the Board of Inland Revenue and the Customs and Excise Division in respect of taxes and duties. It also hears appeals from decisions of the Central Bank made under the Financial Institutions Act, 1993 as well as from those made under the Tourism Development Act, 2000.

81. The composition of the Board includes, at present, a Chairman, who by law, is remunerated at the same level as a Puisne Judge, and two (full-time) members. Provision also exists for members to serve on a part-time basis, but no one currently serves in that capacity.

82. In their submissions, the Members of the Board expressed the view that the office of Member (full-time) has been denied the recognition given to the office of High Court Judge despite the similarity in the nature of the function and responsibility of the offices. We maintain that the Higher Judiciary occupies a unique position in our society and are of the view that there is no rationale to alter the existing relationship.

83. A request has been made for the Commission to indicate that the Housing Allowance for which Members of the Board are eligible is a tax exempt allowance. This matter, in our view, is not one for the Commission's determination.

84. Our recommendations for the office of Member of the Tax Appeal Board are as follows:-

## CHAPTER 13

### THE ENVIRONMENTAL COMMISSION

85. The Environmental Commission of Trinidad and Tobago was established under the Environmental Management Act, No. 3 of 2000 as a superior court of record. The Environmental Commission is a specialist court, which was established to hear and determine environmental disputes arising out of the Act and any other written law where the jurisdiction of the Commission is provided for specifically, such as the Noise Pollution Rules and the Environmentally Sensitive Species Rules, 2001.

86. Apart from this mandate, the Act provides that the Environmental Commission shall encourage and promote alternative dispute resolution, being any mechanism for resolving disputes other than by litigation.

87. The judicial officers of the Court are the Chairman, Deputy Chairman and Members. The Chairman and Deputy Chairman are attorneys-at-law who are required to have not less than ten years standing and are appointed by the President. Other members are appointed by the President from among such persons as appear to him to be qualified by virtue of their knowledge of or experience in environmental issues, engineering, the natural sciences or the social sciences. Only the offices of Chairman and Deputy Chairman fall within our purview.

88. The main thrust of the proposals from the Commission, as we understand it, is that the offices of Chairman and Deputy Chairman should be on par with similar offices in the superior courts of record established by Acts of Parliament, for example, the Tax Appeal Board and Industrial Court.

89. We have re-examined the relationships existing between the offices of the various superior courts of record and based on the duties and responsibilities of the Chairman and Deputy Chairman, Environmental Commission, as well as the scope of the Commission, we have recommended a realignment of the offices.

## CHAPTER 14

### TOP MANAGERS IN THE PUBLIC SERVICE

91. Within the hierarchical structure of the Public Service, the group of Top Managers consists of first and second level executives and senior administrative and technical personnel. These office holders are responsible for the formulation and implementation of policies, programmes and projects necessary for national development and the social and economic well being of the citizens of the country. In general, Top Managers are required to supervise and administer substantial budgetary allocations and are accountable to the Executive and Parliament and consequently, are expected to practice sound financial management.

92. The general trend of the submissions made to us by office holders was that there was the need for significant improvement in the remuneration arrangements attaching to the various offices. Their main proposals, as we understand them to be, are as follows:-

- (i) Permanent Secretaries should receive a remuneration package which bears comparison with that of Chief Executive Officers in the State and private sector;
- (ii) the need to motivate and 'incentivise' personnel in the Public Service;
- (iii) the provision of an appropriate remuneration package to be able to attract and retain persons of suitable competence, experience, knowledge and skills to transform the Public Service;
- (iv) the need to maintain meaningful differentials or relativities with top positions and subordinate positions under the Salaries Review Commission and the rest of the Public Service;
- (v) the need to maintain the real value of the compensation package which has deteriorated by 15% since May 2002 due to inflation; and
- (vi) the compensation packages of Permanent Secretaries should be restructured to include an incentive component.

93. In addition, certain office holders proposed the realignment of their offices with those in groupings higher than those in which they are placed.

94. Since the conduct of our last general review, the offices of Assistant Auditor General and Deputy Secretary to Cabinet were added to this group. The new office of Deputy Auditor General has been included in this Report. The office of Secretary, National Security Council Secretariat which was placed

previously at the level of Group 2B, was reassigned in 2005 to a new sub-group - 1D.

95. We are mindful that, in large measure, the successful implementation of public policies and programmes is dependent upon a cadre of highly professional managers with the requisite competence, experience and personal attributes. In this regard, we believe that the compensation package of Top Managers should bear a relationship to their roles, duties and responsibilities.

96. In recommending salaries for this group, we found it appropriate to establish a benchmark at the level of Permanent Secretary. We bore in mind data with regard to the average salary payable in 2005 to CEOs in the public sector (including Statutory Authorities and Bodies) and considered it appropriate to establish a basic salary at a level of approximately 80% of that average. Further, we took into consideration allowances that are peculiar to the Public Service, such as the Duty and Service Allowances.

97. We appreciate the value of the payment of performance incentives. However, the establishment of such incentives requires the existence of objective standards and measurements. We have been advised that, currently, discussions are being held on the creation of a Ministerial Performance Management Framework for Ministries/Departments. Until an appropriate system is implemented, it would not be feasible for the Commission to recommend the payment of performance incentives.

98. Once again, we have had to give special consideration to the office of Chief Medical Officer in view of advice we received on the revision in the compensation arrangements for other medical officers in the Regional Health Authorities. Given the role and function of the office of Chief Medical Officer, we have sought to ensure that a reasonable differential exists between the package of that office and those of other medical officers.

99. In the case of the office of Director, Forensic Science Centre, we have recommended the discontinuation of the existing Specialisation Allowance. That allowance was provided previously in order to ensure a reasonable differential between the compensation package of the office of Director and offices at a lower level in the Forensic Science Centre. In light of the salary and other allowances which we have recommended for the office of Director, we are satisfied that there no longer is a need for the payment of the Specialisation Allowance.

100. We have recommended the provision of certain allowances for some office holders.

**PUBLIC TRANSPORT SERVICE CORPORATION**

105. We are informed that WASA is still undergoing structural changes in order to maximize its efficiency and thus achieve its mandate of becoming a self-reliant entity. Accordingly, our recommendations are based on the existing relativities.

106. In respect of PTSC, in its submission to the Commission, emphasis was placed on the Corporation's role in providing an affordable, efficient and highly reliable transport service that is cost effective and within acceptable levels. It was suggested that the PTSC must be seen as a business entity comparable to similar sized private sector entities and able to attract and retain various competencies required for the proper development, improvement and efficient delivery of transport services. We have taken these views into account in our deliberations.

## **CHAPTER 16**

### **SENIOR OFFICERS IN THE PROTECTIVE SERVICES AND THE DEFENCE FORCE**

113. The composition of this group is as follows:-

Chief of Defence Staff

Commissioner of Police

Commissioner of Prisons

Chief Fire Officer

Vice Chief of Defence Staff

Deputy Commissioner of Police

Deputy Commissioner of Prisons

Deputy Chief Fire Officer

Director, Special Anti-Crime Unit

Special Adviser to Cabinet on all Protective Services and Chief Executive  
Officer of the National Security Council Secretariat

Inspector of Police Services

Since our last general review in 2002, the office of Special Adviser (Protective Services), Ministry of National Security has been abolished.

114. The office holders in this group share the strategic responsibility for ensuring the safety and security of the country by advising on, developing and implementing policies for law enforcement, crime deterrence and the protection of life and property.

115. The senior officers of the Protective Services have indicated in their submissions to us, that criminal activities in Trinidad and Tobago have increased to an extent where their jobs have become more onerous, complex and demanding, and they have been placed at substantially increased risk.

116. The proposals of the office holders, as we understand them, are as follows:-

- (i) the enhancement of their remuneration packages;
- (ii) the introduction of new allowances, namely, a Responsibility Allowance, an International/Regional Security Contact Allowance and a Passage Allowance/Travel Grant;

- (iii) the extension of the Special Depreciation Allowance to specified office holders who are not currently in receipt of same;
- (iv) the provision of official cars and drivers to the deputy heads of the various Services and the Defence Force;
- (v) the reintroduction of the Ration Allowance for the Chief of Defence Staff and the Vice Chief of Defence Staff as a personal allowance;
- (vi) the introduction of a Duty/On Call Allowance for the deputy heads; and
- (vii) all taxable allowances be included in the calculation of pension benefits.

117. In our Sixty-seventh Report, we considered similar proposals for the introduction of a Responsibility Allowance, an International/Regional Security Contact Allowance and a Passage Allowance. We maintain our position that such allowances should not be introduced. Our position with regard to the provision of official cars and drivers and the reintroduction of the Ration Allowance remains unchanged.

118. We have recommended the provision of the Special Depreciation Allowance to the Chief of Defence Staff, Vice Chief of Defence Staff, Commissioner of Police, Deputy Commissioner of Police and Director, Special Anti-Crime Unit.

119. With respect to the request for the provision of a Duty/On-Call Allowance, we recognise that the nature of the responsibilities of the offices necessitates that the office holders, like their senior officers, be available on a twenty-four hour basis. Therefore, we have recommended the introduction of a Duty Allowance for the deputy heads.

120. We have been advised that since our last general review, the offices of Chief and Vice Chief of Defence Staff, Commissioner and Deputy Commissioner of Police, and Commissioner and Deputy Commissioner of Prisons have been provided with uniforms. We recommend, therefore, that the existing Uniform Upkeep Allowance be discontinued.

121. The proposal that all taxable allowances be included in the calculation of pension benefits is one for consideration at a policy level.

122. Our recommendations for the offices of the Protective Services and Defence Force are as follows:-

## CHAPTER 17

### SENIOR DIPLOMATIC REPRESENTATIVES

123. Senior Diplomatic Representatives comprise resident High Commissioners/Ambassadors who are posted at Missions abroad and non-resident High Commissioners/Ambassadors who are based at the local head office of the Ministry of Foreign Affairs.

124. High Commissioners/Ambassadors are responsible for effecting the foreign policy of the Government of Trinidad and Tobago and promoting the country in a positive manner in the international community. In this regard, they play a key role in the Ministry of Foreign Affairs, by fostering Government's efforts to enhance inflows of investment and technology, developing avenues for exports and increasing the flow of bilateral and multilateral assistance, for the economical, social and cultural benefit of the country.

125. The Heads of Missions have raised a number of issues in their submissions. These, as we understand them, are as follows:-

- (i) the existing relativities between the office of High Commissioner/Ambassador and other office holders within our purview;
- (ii) the substantial reduction in the real purchasing power of existing allowances brought about by the decline/fluctuation in exchange rates, particularly of the US dollar;
- (iii) the adequacy of allowances currently paid;
- (iv) the reinstatement of funding for tertiary education for children of High Commissioners/Ambassadors, up to the age of twenty-three years;
- (v) improvements in a number of existing terms of service, such as Vacation Leave, Leave Passages, Medical Benefits and superannuation arrangements; and
- (vi) the introduction of certain benefits/allowances such as a Car Loan for resident High Commissioners/Ambassadors and payment of membership fees in Clubs.

126. Our responses are as follows:-

- (i) We are satisfied that the office of High Commissioner/Ambassador is remunerated appropriately within the existing structure for offices under our purview.
- (ii) We recognize that some of the allowances payable to office holders are subject to the vagaries of fluctuations in exchange rates of various currencies. Consequently, where appropriate, we have recommended that allowances be fixed in specific currencies for locations we have identified. While this would not eliminate completely the effects of fluctuations in exchange rates, with a broader set of currencies, such effects should not be as widespread.
- (iii) As is the norm, we have reviewed all the allowances payable to Heads of Mission and have recommended revised rates, where appropriate.
- (iv) In our Sixty-seventh Report, we noted the substantial costs which were incurred in funding of tertiary education at foreign universities for children of High Commissioners/Ambassadors. Therefore we recommended the discontinuation of the facility. We are of the view that such a facility should not be reinstated.
- (v) With regard to existing terms, such as Vacation Leave, Leave Passages, Medical Benefits and superannuation arrangements, we are satisfied that the existing provisions are adequate and in certain instances, generous. Therefore, we recommend no change.
- (vi) We are not persuaded of the need for resident High Commissioners/Ambassadors to be provided with car loans to enable them to purchase a vehicle in the country to which they are posted. We are of the view that the provision of an official car is sufficient. On the issue of the payment of Club membership, we recognize that clubs/social organisations have become an important arena for networking on an official level. We consider, however, that such a matter should be dealt with administratively by the Ministry of Foreign Affairs.

127. The Foreign Service Allowances payable to High Commissioners/Ambassadors is set at 20% above the rate payable to a married Foreign Service Officer V. We have been advised that currently the rates of the allowance for Foreign Service Officers for the period 2002 - 2004 are being reviewed. Bearing in mind the existing relationship, the revised rates of Foreign Service Allowance for High Commissioners/Ambassadors have been derived on the basis of the formula normally used to determine the allowance for Foreign Service Officers. In the case of Brasilia, the derived allowance was lower than

that currently paid. In the circumstances, we have recommended that the existing allowance be maintained.

128. Currently, with the exception of Caracas, officer holders posted in North and Latin America are paid the same rates of Warm Clothing Allowance. However, based on submissions, we have found it necessary to review the existing policy, given that cities in North America experience significantly lower temperatures. We recommend, therefore, that officer holders stationed in Latin American countries be provided with the same level of Warm Clothing Allowance as is payable in Caracas. Additionally, for children between the ages of 12 and 20, we have recommended significantly increased rates in light of the cost of warm clothing for children of that age.

129. Our recommendations for the offices of High Commissioner/Ambassador (resident) and (non resident) are as follows:-

## **CHAPTER 18**

### **CHAIRMEN AND MEMBERS OF COMMISSIONS AND BOARDS**

130. This group consists of offices in several Commissions and Boards which were established by various enactments. They are as follows:-

- Law Reform Commission
- Law Revision Commission
- Police Complaints Authority
- Integrity Commission
- Elections and Boundaries Commission
- Registration, Recognition and Certification Board
- Public Service Commission

- Judicial and Legal Service Commission
- Police Service Commission
- Statutory Authorities' Service Commission
- Public Service Appeal and Statutory Authorities
- Appeal Boards
- Salaries Review Commission.

The Environmental Commission which was listed in this group has been placed in a separate Chapter.

131. In their submissions, a number of office holders have proposed once more that their remuneration packages should be aligned to that of the Higher Judiciary. Apart from salary, they have sought to be provided with a number of benefits which, in our Sixty-seventh Report, we had indicated should be provided only to members of the Higher Judiciary. These include the Personal (Judge's) Allowance, a personal chauffeur, the Judicial Contact Allowance and exemption from taxes. We have reviewed the relativities existing between Chairmen and Members of Commissions and Boards and the other office holders under our purview and are satisfied that the relationships are appropriate.

## **CHAIRMAN, LAW REFORM COMMISSION**

132. The Law Reform Commission is the permanent Law Reform body for Trinidad and Tobago established by the Law Reform Commission Act, Chap. 3:04. The Commission is required by statute to keep all the laws of Trinidad and Tobago under review and therefore must be familiar with all branches of the law – both statute and common law.

133. The Commission consists of a Chairman and such other Commissioners as may be appointed by the President.

134. It has been proposed that terms and conditions to be applicable to the office should be equated with those of a Justice of Appeal. We have reconsidered the duties and responsibilities of the office and we are satisfied that its present status should be maintained.

The Commission consists of a Chairman, the Chairman of the Law Reform Commission and such other members as the President may appoint. The principal function of the Commission is to prepare, publish and maintain a Revised Edition of the written laws of Trinidad and Tobago.

Under our democratic system of government, the Commission has the very important role of reviewing constituency boundaries and supervising the conduct of all elections.

145. In their submission to us, the Commission proposed the following, as we understand them:-

- (i) the remuneration package for the offices should be considered in a context which is substantially different from that applied to other Commissions and similar institutions particularly because of the constitutional nature of the appointment and tenure of the Commission's members;
- (ii) the offices of Chairman and Member should be regarded as full time;

- (iv) Members be provided with a motor vehicle loan as well as an upkeep allowance, medical benefits and gratuity at the end of their period of service.

146. The office of Chairman, Elections and Boundaries Commission is deemed to be a full-time one while that of Member is deemed part-time and we are satisfied that the existing circumstances do not warrant a change in the current status. Additionally, the benefits being proposed for the Members are provided only to office holders whose offices are deemed to be full-time.

- Judicial and Legal Service Commission
- Police Service Commission
- Statutory Authorities’ Service Commission

152. Three of the offices in these Commissions are considered full-time. These are the Chairman and Deputy Chairman, Public Service Commission as well as the Chairman, Teaching Service Commission.

153. The Commissions, with the exception of the Statutory Authorities’ Service Commission, are established by the Constitution and the Chairmen and Members are appointed by the President after consultation with the Prime Minister and the Leader of the Opposition. The Statutory Authorities’ Service Commission is established under the Statutory Authorities Act, Chap. 24:01 and its Chairman and Members are appointed by the President.

154. The Service Commissions exercise authority in the human resource management areas of appointments, promotions, transfers and discipline in respect of officers in the Public Service and relevant Statutory Authorities.

155. In general, the Commissions have pointed to increased work loads and the contributions that members make to the country.

156. Specifically, the Public Service Commission, in its submission, has proposed the following, as we understand them:-

- (i) the Chairman and Deputy Chairman should be remunerated at a rate no less than what is provided for the office of Director of Personnel Administration; and
- (ii) the Housing Allowance and Service Allowance provided to the Chairman, Police Complaints Authority and the Chairman, Integrity Commission should be included in the packages of the Chairman and Deputy Chairman of the Public Service Commission.

## **PUBLIC SERVICE APPEAL AND STATUTORY AUTHORITIES APPEAL BOARDS**

159. The Public Service Appeal Board was established in accordance with section 130 of the Constitution. It is mandated to hear appeals from public officers regarding decisions taken in disciplinary matters by the respective Service Commissions.

160. The Appeal Board comprises a Chairman and two Members. The Chairman is appointed by the President after consultation with the Chief Justice whereas the Members are appointed by the President following consultation with the Prime Minister and the Leader of the Opposition.

161. The Statutory Authorities Act, Chap. 24:01 provides for the establishment of the Statutory Authorities Appeal Board. Its role is similar to that of the Public Service Appeal Board since it is required to hear appeals of aggrieved officers against decisions taken against them by the Statutory Authorities' Service Commission.

162. The Chairman and Members of the Public Service Appeal Board serve in similar capacities on the Statutory Authorities Appeal Board. Two other Members serve solely on the Statutory Authorities Appeal Board. These latter office holders are appointed by the President after consultation with the Prime Minister and the Leader of the Opposition.

## **CHAPTER 19**

### **THE JUDICIAL AND LEGAL SERVICE**

166. The Judicial and Legal Service is comprised of judicial and legal offices as defined in the First and Second Schedules to the Judicial and Legal Service Act, Chap. 6:01.

167. The judicial offices are the following:-

Master of the High Court

Chief Magistrate

Deputy Chief Magistrate

Senior Magistrate

Magistrate

Registrar and Marshal

Deputy Registrar and Marshal

Assistant Registrar and Deputy Marshal

Administrative Secretary to the Chief Justice

Court Executive Administrator

Registrar, Tax Appeal Board

Registrar, Environmental Commission

Registrar, Industrial Court

Assistant Registrar, Industrial Court

Magistracy Registrar and Clerk of the Court.

168. The office of Magistracy Registrar and Clerk of the Court was brought within our purview since the last general review.

169. The legal offices comprise the three chief legal officers, namely, Solicitor General, Director of Public Prosecutions and Chief Parliamentary Counsel as well as the other legal offices attached to the Departments of Civil Law, Criminal Law and Legislative Drafting, as listed in Appendix III. The office holders in these Departments perform duties related to their particular areas of law. Also included in our review is the recently created office of Parliamentary Counsel III in the Legislative Drafting Department of the Ministry of the Attorney General.

170. In their submissions, the office holders generally reiterated proposals that had been made during previous general reviews and more specifically, those put forward during the review of the salaries and other terms and conditions of service of officers in the Judicial and Legal Service in 2004 which arose as a result of the Job Evaluation exercise which had been undertaken.

171. The submissions of the office holders, as we understand them, include the following:-

- (i) the re-alignment of some offices with offices in groupings higher than those in which they were placed;
- (ii) the delinking of certain offices from the Judicial and Legal Service and placing them with the Higher Judiciary grouping;
- (iii) parity between some offices and that of Puisne Judge;
- (iv) parity among all offices of Registrar and alignment with offices classified in Group IC of the "Top Managers in the Public Service" grouping;
- (v) the extension of specific allowances to office holders not currently in receipt of such; and
- (vi) the introduction of allowances for specialized areas of work, books and Overseas Travel/Vacation.

172. In formulating our recommendations, we took into account the duties and responsibilities of the office holders as well as the remuneration applicable to other office holders within our purview. Also, we bore in mind, where feasible, compensation payable to comparator positions in the private sector, while taking account of issues such as security of tenure, the provision of pension and the degree of risk to which holders of the comparator positions are exposed. Concerning allowances and other terms and conditions of service, where terms already exist, we based our recommendations on the principles outlined in Chapter 2. Where office holders requested new terms, we have recommended their inclusion where we considered it appropriate.

173. With respect to the alignment of certain offices, we are satisfied generally with the placement of offices within the existing salary structure since we have no evidence of changes in the duties and responsibilities of offices. That placement within the salary groups was based on the scores assigned to the offices during the Job Evaluation exercise. We have been advised that Cabinet has agreed that steps should be taken to re-evaluate the office of Registrar, Environmental Commission and those in the Registrar General's Department, where the Personnel Department determines that the latter should be re-evaluated. In this

regard, where necessary, a review of the terms and conditions of service of the affected offices will be undertaken subsequently.

174. Further, we continue to hold that Judges occupy a unique position in our society and that the pay arrangements for offices in the Judicial and Legal Service should continue to be fixed within the structure applicable to that Service.

175. As stated in Chapter 2, we have been informed that a number of offices were omitted from the Job Evaluation exercise and that newly created ones are to be evaluated. Pending the completion of such evaluations, we have assigned all these offices to existing salary groups in the Judicial and Legal Service. Any revised salaries and other terms and conditions of service approved for these groups would apply to these offices in the interim. Additionally, where any of those offices were filled during the period April 1, 2002 to March 31, 2005, the remuneration arrangements which were applicable to the relevant salary groups over that period shall apply.

176. The offices that have been assigned to groups as an interim measure are:-

#### Judicial Offices

Assistant Registrar, Industrial Court  
Court Executive Administrator  
Magistracy Registrar and Clerk of the Court

#### Legal Offices

Senior Assistant Registrar General

## **CHAPTER 20**

### **MEMBERS OF PARLIAMENT**

178. In our review of the offices, we re-examined the relativities existing among this grouping, taking into consideration the increased responsibilities particularly at the level of the office of Prime Minister, for providing guidance and leadership necessary in a modern society to ensure good governance, and the supporting role of the Ministers of Government, in general.

179. Consequent upon the realignment of the aforementioned offices, we re-examined the duties and responsibilities of all the other offices in this grouping and have recommended appropriate remuneration packages for them.

180. The submissions of a number of the office holders, in the main, treated with the following:-

- (i) the provision of an allowance for persons who serve on Statutory Parliamentary Committees; and
- (ii) a review of existing superannuation benefits.

181. With regard to the allowance for persons who serve on Statutory Parliamentary Committees, we recommend a Committee Service Allowance for specified persons who serve on such Committees.

182. On the issue of superannuation benefits for parliamentarians, prior to the receipt of submissions in respect of this general review, the matter had been referred to the Commission by the President of the Republic and will be dealt with in a subsequent Report.

### **PRIME MINISTER**

183. The Prime Minister, as head of government in Trinidad and Tobago, provides leadership to government and general direction of the affairs of State, with the support of a Cabinet. The leadership of Cabinet is central to the existence of stable and cohesive government and that onerous responsibility falls to the Prime Minister.

184. Further, in the contemporary global environment, and given the prevailing economic, social and financial realities as well as the projections for the future for Trinidad and Tobago, the decision-making process, which the office of Prime Minister oversees, has significant implications for the present and future political and socio-economic well being of the country. ## CHAPTER 21

### THE TOBAGO HOUSE OF ASSEMBLY

203. The Tobago House of Assembly Act, No 40 of 1996 established the restructured Tobago House of Assembly (the Assembly). According to the Act, the Assembly is a body corporate comprising:-

Twelve Assemblymen

Four Councillors

A Presiding Officer.

204. The central body of the Assembly is the Executive Council which consists of the following offices:-

Chief Secretary

Deputy Chief Secretary

A maximum of five Secretaries.

205. The members of the Assembly are:-

Chief Secretary

Deputy Chief Secretary

Secretary

Assistant Secretary

Presiding Officer

Minority Leader

Deputy Presiding Officer

Assemblyman

Councillor.

206. In accordance with section 25 of the Act, the Assembly is responsible for the formulation and implementation of policy in relation to Tobago in respect of a number of matters, including Finance, State Lands and Health Services.

207. In their submissions, the members of the Assembly put forward the following, as we understand them:-

(i) the governance of the island has become more challenging and complex;

- (ii) unlike a Cabinet Minister, the Chief Secretary is responsible for the entire administration and governance of the island of Tobago and also assumes responsibility for multi-dimensional portfolios;
- (iii) the Chief Secretary relates to the Executive Council and Secretaries in a manner similar to that of the Prime Minister in relation to Cabinet and Cabinet Ministers.
- (iv) the responsibilities of the Deputy Chief Secretary have been affected as in the case of the Chief Secretary, given the new challenges and complexities of the governance of the island;
- (v) because of legal limitations regarding the number of Secretaries in the Assembly, the duties of the office holders have become more burdensome, challenging and complex;
- (vi) the role of Assemblyman has become more challenging with rising expectations for the provision of services from the general public; and
- (vii) Councillors are expected to play a more effective role in staff development and government.

208. The members have sought, therefore, a realignment of their offices with certain offices within our purview and significant enhancement of their remuneration arrangements. While we recognise that governance of Tobago has become more challenging and complex, this, in our view reflects the challenges being faced as well at the level of State and Local Government. Further, a number of the issues raised had been submitted to us in the past. However, we are of the view that there are no changed circumstances which would warrant a shift in our position with regard to the relationships between the offices of the Assembly and those of other offices within our purview.

209. We considered the duties and responsibilities of the individual offices and we are satisfied that the levels of remuneration which we have recommended are appropriate.

210. With regard to specific benefits for the Chief Secretary, the Assembly has proposed:

- (i) the provision of a fleet of motor vehicles with a complement of Chauffeurs to be fully maintained by the Assembly to facilitate access to other vehicles in the event of mechanical failure, as well as for use by dignitaries visiting the island; and

- (ii) the establishment of arrangements for the defrayal of the full cost of accommodation and meals, in the event of the office holder's inability to access the official residence due to natural disasters or other emergencies.

211. We are of the view that the provision of additional vehicles for use by visiting dignitaries should be treated with administratively, rather than as a term and condition of the office of Chief Secretary. Also, appropriate administrative arrangements should be made to treat with accommodation and meals for the office holder in the event of any emergency.

212. Proposals were submitted also for the payment of a Representation Allowance and Executive Responsibility Allowance to the office of Chief Secretary, and certain other members of the Assembly to compensate for the responsibility of servicing a district/constituency and for responsibilities attaching to the office. However, we are of the view that these responsibilities are fundamental to the offices and are factored into the salaries attaching to the positions.

213. Under the existing arrangements, a contributory pension scheme has been established by the Assembly for its members. We have been advised, however, that the Assembly proposes to use the Retiring Allowances (Legislative Services) Act, Chap. 2:03 as a model for the provision of pension/gratuity for members of the Assembly. To accomplish this, we have been advised that the Assembly proposes to have legislation passed.

214. While the Act gives the Assembly the authority to establish a contributory pension scheme for its members, the Fifth Schedule to the Act which indicates the areas in respect of which the Assembly may propose and adopt bills, makes no direct reference to pension plans or remuneration for members of the Assembly. We have been informed that it is advisable for the Assembly to seek the appropriate approval to have issues of pension arrangements included in the Fifth Schedule to the Act.

## CHAPTER 22

### LOCAL GOVERNMENT OFFICIALS

216. The system of Local Government of Trinidad and Tobago is regulated by the Municipal Corporations Act, No. 21 of 1990 which provides for political administration at the local level. In the present system, there are fourteen Municipal Corporations which have jurisdiction over two cities, three boroughs and nine regions. Each Corporation comprises the following offices: -

Mayor or Chairman  
Deputy Mayor or Vice Chairman  
Alderman  
Councillor.

217. In its submissions to us, the Association of Local Government Authorities raised the following issues, as we understand them:-

- (i) holders of similar offices should be remunerated at the same level;
- (ii) the provision of a Housing Allowance;
- (iii) the provision of Vacation Leave and medical benefits for the offices of Deputy Mayor and Vice Chairman; and
- (iv) the placing of the offices of Mayor and Chairman in the 'Executive' schedule for overseas travel with the relevant per diem allowances/facilities and that allowances be provided for rental and for equipment.

218. Our responses are as follows:-

- (i) We reiterate our view that while the duties and responsibilities of the offices in the various Corporations are identical, the scope of those functions varies significantly based on factors such as the land area covered and the size of population to be serviced by the individual Corporations. Consequently, we maintain that the policy of remunerating the various offices at different levels is justified. We took account of the fact that the borough of Chaguanas is now the most populous of the cities and boroughs, with a resident population of approximately one hundred thousand persons.
- (ii) We are satisfied that the benefits provided to office holders are appropriate. Therefore, we recommend neither the inclusion of a Housing

Allowance for office holders nor Vacation Leave nor medical benefits for the offices of Deputy Mayor and Vice Chairman - the latter two benefits being provided to persons who serve or are deemed to serve on a full-time basis.

- (iii) We consider that the issue of placing the office of Mayor/ Chairman in the 'Executive' schedule for purposes of overseas travel is not a term and condition of service but rather a policy decision to be taken by the State.
- (iv) Issues such as the rental of office space and the provision of equipment should be dealt with administratively.

219. Accordingly, we have adjusted the relationship which currently exists between the offices of Mayor and Deputy Mayor, Chaguanas and other Local Government Officials.

220. Our recommendations for Local Government officials are as follows: -
