

## INDUSTRIAL RELATIONS TRAINING

Over a two-month period from **May 31 to August 2, 2025** twenty-four (24) staff members from the Personnel Department took part in an intensive Industrial Relations training programme designed to sharpen their expertise and strengthen the Department's role across the Public Service.

Chief Personnel Officer, Commander Dr. Daryl Dindial, sees the initiative as a long-term investment in the Department's people. Through building internal capacity, he explained, the Department is better positioned to support **Ministries, Departments and Agencies (MDAs)** throughout the Public Service. He also noted that the programme reflects a broader commitment to professional excellence, resilience and service transformation. As the public sector evolves, so too must its people and this training is one clear example of how the Personnel Department is preparing its team to lead with integrity and purpose.

**CONGRATULATIONS  
TO ALL THE PARTICIPANTS!**
